

Yamada

VS.

Head to Head

Proven Field Service – with over 26 years of service, Yamada has sold over 100,000 units

Many major heavy construction equipment manufacturers sell the KPL-24 as an option on their machinery

Follower Plate – metal construction with Buna N wiping seals allowing for a straight or tapered 5 gallon pail

Unit Weight – weighing in at 26 lbs., the KPL-24 is 35% lighter than the Lincoln. This allows for easier portability and greater stability when the pail is close to empty (*no tipping issues*).

Overall Winner	

Product has been in the marketplace for only 2 years!!

Follower Plate – One solid piece of Buna N that is fastened to the coupling with wood screws – This design will wear faster and the screws present another potential problem area

Unit Weight – weighing in at 35 lbs., this unit is much heavier than the KPL-24 and may tip over when pail is close to empty; held to pail with bungee cords
